

**On 28<sup>th</sup> November 2007 at “Caru cu Bere”, Euromall revived the older day’s atmosphere of Little Paris! And much more!**

At a festive event addressed to Euromall’s business partners, the ambiance was enhanced with the quality music of Calin Geambasu’s band, the theatrical interpretation of actors Horatiu Malaele and Valentin Teodosiu, the setting, the catering, can-can dancing and drawings from the artist Malaele. The Caragiale play together with live quality music and dancers provided a dynamic environment that entertained the guests for more than 5 hours. The event had its own authenticity and perfectly combined the Retro concept with the expectations of more than 200 guests.

With this occasion, Euromall also celebrated the marketing activities successfully sustained for Euromall Galati, the group’s second project, which is going to be the primary destination for shopping and free time in the city near the Dunarea River.

Euromall Galati, the first shopping center from this county, will have over 150 stores, a supermarket, a pharmacy, restaurants, coffee shops and an entire floor for entertaining areas, 7 movie theaters, one casino and a billiard room. Euromall Galati has a very attractive mix of national and international brands and Colliers International is the exclusive agent for renting up the space.

The ultramodern building will be opened near the end of the year 2008. Euromall Galati will be the main place for entertainment for over 700.000 inhabitants, with a total surface of 50.000 square meters, a using area of 24.000 square meters, and over 800 parking places, representing an investment of over 50 million euros.

The first mall opened in Romania by the Euromall Group is situated in Pitesti, being the only one in this county, established since May this year. This represents the complete and modern solution with over 100 stores on a surface of 32.000 square meters. Immediately after the opening, the shopping center was acquired by the Austrian investment fond Immoeast.

The Euromall brand is the property of a French investment group with vast experience in the real-estate domain. Euromall was designed as a major project developer in the South-Est of Europe. The developing plans include: Euromall Pitesti, Euromall Galati, Euromall Ploiesti and Euromall Craiova, the EuroTower Pitesti business center and also the residential center Baneasa.
